NOLAN GEAR and WHEEL PULLER

No. 2. Most widely used for everyday jobs. Capacity 4 tons. Net weight 19 lbs. Complete outfit \$21.50.

No. 4. For extremely heavy pulling jobs. Capacity 12 tons. Net weight 60 lbs. Complete outfit \$45.00.

**ORDER TODAY—
PROMPT DELIVERY!**

The Nolan Gear and Wheel Puller is adaptable to scores of pulling jobs. Simple to operate; does the job speedily, safely. Light, portable, easy to use in hard-to-get-into places. Free from all disadvantages of rigid-arm pullers. No extra attachments necessary.

One Nolan Puller will probably handle all gear and wheel pulling jobs you have. The double-end chains have grab hooks on one end for spoked wheels, and special close-grip hooks on the other end for use on solid wheels.

Keep a Nolan Gear and Wheel Puller handy around your place. It will pay for itself on the first job or two, in time, labor and money saved. Illustrated catalog if desired. **SEND YOUR ORDER NOW!**
